

opentext™ | Intelligent Capture

OpenText™ Captiva™ Capture is now OpenText™ Intelligent Capture.

Intelligent Capture delivers industry-leading functionality with enterprise scalability and performance. By automating manual processes and improving data quality, 84 percent of customers surveyed reported a successful return on investment within 12 months and 92 percent within 18 months.

What customers are saying

“We saved at least **\$1 Million** by leveraging our existing scanning hardware and the capture software environment.”

Minnesota Department of Revenue

“With OpenText Intelligent Capture, we experienced both **significant cost reductions and more business opportunity.**”

CitiGroup

“ROI in under **three years** with immediate cost savings of **\$500,000 a year** for HR and Finance due to OpenText Intelligent Capture.”

City University Hong Kong

“Before CERMS and OpenText solutions, it took us 9–14 days to image and process documents. We’ve **reduced the time to two days.** That’s a huge improvement.”

County of San Diego Health and Human Services Agency

“We increased the number of new account openings **by 24%** with OpenText Intelligent Capture.”

Eaton Vance

“Document classification automation has **increased by 55%**, resulting in the **closure of one of three scanning centers** and absorbed the remaining work without expanding staff.”

Ameritas

“With OpenText Intelligent Capture, we are able to quote new business within a **matter of minutes as opposed to days.**”

Grange Mutual Casualty Company

“We have dramatically sped up the insurance application process **from one week to two days** for a policy to be generated.”
